## Tilepaint APRIL 24,2023

## INSTRUCTIONS

The goal of this puzzle is to fill in cells to create a recognizable image. Each area enclosed by bold lines is a "tile," made up of a number of cells. You must fill in the cells of some tiles according to the following rules:

1. The numbers in the cells with diagonal lines indicate the number of filled cells that will be below or to the right of that cell.
2. 

If a number appears on the left side of one of these cells, it indicates how many filled cells there will be in the column below the numbered cell (before the edge of the puzzle or the next numbered cell).
3.

If a number appears on the right side of one of these cells, it indicates how many filled cells there will be in the row to the right of the numbered cell (before the edge of the puzzle or the next numbered cell).
4.

All of the cells in a given "tile," or outlined area, must be either all filled or not filled.

Solve puzzle number 3 for an Atlas Obscura surprise!

## \#3

|  | 5 | 4 | 1 | 1 | 1 | 6 | 1 | 3 | 4 | 2 | 1 | 3 | 3 | 4 | 5 |
